

GLOBAL HEALTH MINOR

The minor in Global Health — through a broad inventory of courses that provide a solid foundation in, and familiarity with, social determinants of health, epidemiology, environmental health, nutrition, data collection, and evaluation methods — allows students to develop an interdisciplinary understanding of health issues in a global context.

Students undertaking the Global Health Minor explore the institutional, economic, logistic, legal, social and artistic challenges facing global health solutions, investigate the health implications of globalization, as well as address issues of social justice and development, which are crucial to understanding the determinants of health issues around the world.

Minor Preparation Requirements: 2 Lower Division Courses

Preparation Courses (2 courses)

Select two from the following:

Civil & Environmental Engineering 58SL • Community Health Sciences 90, 91 • General Education Cluster 80A, 80B, 80CW • Global Studies 1 • History 3D • Honors Collegium 1, 14, 26 • International and Area Studies 1 • Molecular, Cell and Developmental Biology 60, 70 • Nursing 50 • Statistics 10, 13 • World Arts & Cultures 33

Admission to the Minor:

To be admitted to the Global Health minor, students must be in good academic standing (minimum 2.00 GPA overall) and have completed all preparation courses for the minor with a minimum GPA of 2.00 in these courses.

After satisfying these requirements, students may declare the Global Health Minor upon consultation with the Academic Counselor for Global Health.

Minor Requirements: 5 Upper Division Courses (20 units minimum)

Core Course (1 course)

Global Health 100: Global Health and Development
